

Eczema Relief + Soothes Stressed Skin

Eczema Care

Medical Skin
Care

Product description

A medical cream that reduces the discomfort of eczema and relieves itching, redness and a burning sensation. The cream provides optimal and long-lasting hydration, softens, calms and soothes the skin immediately. Suitable for all skin types and skin conditions and for the relief and prevention of eczema.

Indications/fields of application

- Relief from eczema symptoms
- Support in preventing eczema flare-ups
- Support for skin that is sensitive or prone to redness
- Preventative treatment for irritated and sensitive skin that is itchy and/or flaky
- Supports the repair of skin in the case of a sun allergy

Active ingredients

Aloe Vera Gel : Intensive and long-lasting hydration

Urea : Hydrates and nourishes the skin

Lactic Acid : Protects the skin against harmful bacteria

Glycyrrhetic Acid : Reduces skin sensitivity

Properties

ALHYDRAN Eczema Care, especially developed to reduce the symptoms of eczema, such as itching, redness and dryness and helps prevent eczema flare ups. We used the powerful and scientifically proven formula of ALHYDRAN Medical Care for the Skin as the basis. We combined the unique characteristics of Aloe Vera Gel with other high quality, active ingredients.

ALHYDRAN Eczema Care is enriched with Urea, Lactic Acid and Glycyrrhetic Acid, amongst others. All ingredients contribute to calming and healing skin affected by eczema. Structural use of the cream helps extend eczema-free periods and shorten eczema flare ups.
